The fresh flower market fluctuates also with the time of year, so where possible it is best to avoid colours and flowers which are highly in demand, such as red roses near to valentine's day. # WEDDING COLOURS

## White & Olive

Characterised by a natural palette, white and olive is a classic and timeless colour choice and compliments earthy tones such as brown, bronze and gold as well as light pastel shades like dusky pink and lilac.

## Terracotta

The terracotta wedding palette is from the orange family and radiates warmth and happiness and brings a wonderful depth that appeals to all with its autumnal charm. Complimenting colours include brown, burgundy, peach, gold and olive green.

## Ruby & Blush

Perfect for a modern love story, this colour combination brings a little drama and a lot of romance. Rich reds and soft pinks can be complimented by mulberry and gold and contrast beautifully with crisp white.

---

# WEDDING COLOURS

## Jewel Tones

Incorporating rich, vibrant colors that are reminiscent of precious gemstones such as emerald greens, sapphire blues, ruby reds, and amethyst purples. Often paired with gold or silver accents, this colour palette creates a luxurious and opulent atmosphere.

## Blush & Moss

This romantic yet classic pink wedding palette is a hugely popular choice, combining blush pink, lush fresh foliage and touches of white. When combined with natural wooden decor, it radiates romantic, rustic charm.

## Ivory & Blue

This timeless and classic dusty blue & ivory wedding palette has become a very popular choice in recent years. Complimented by accents of peach, blush pink and gold, it especially suits spring and summer events.

---

# WEDDING STYLES

## Rustic

Classic elements of a rustic style include, a relaxed atmosphere, elements of nature, and wooden accents. With this style we can incorporate a variety of lush, fresh foliage to create texture, natural accents such as twine, hessian and burlap and dried flowers like bunny tails and pampass grass. Typically more informal in style, with looser more natural inspired designs. Floral arrangements can be as large and wild or as petite and whimsical as you would like.

## Country Garden

A soft and romantic look is key for country garden style blooms. Typically using smaller headed more delicate 'garden-like' flowers and soft foliage, this style pairs well with natural furnishings, mismatched bottles or jam jars and an informal venue set in the countryside. Inspired by nature, this style gives a whimsical and vintage feel and is perfect for spring and summertime weddings.

## Classic

For a more neat and manicured finish our classic option is an elegant and timeless style. Very often rose based designs accompanied with classic blooms such as lisianthus, gypsophila and spray roses, this style suits any colour scheme and bouquets and buttonholes are finished with high quality co-ordinating satin ribbon for an extra luxurious touch.
